

BARS WITH FOOD SERVICE

The **Omni 3750** with SoftPay supports the busy and demanding service environment of a bar with food service.

Change Card Option. Patrons can settle their tab with a card other than one used to open the tab.

Auto-settle. The solution can be programmed to automatically settle within 24 hours to ensure that merchants qualify for the best discount rate.

Cash Tip Reporting. Tip reporting is made easier because the total amount of cash tips per bartenders or server can be reported.

Unadjusted Report. Managers can quickly review this report of transactions that haven't been adjusted before end-of-day settlement.

IRS Tip Report. Report prints tip percentage by bartenders or server and cash tips to make IRS tip reporting easy.

Shift Reporting. Establishments can record the number and dollar amount of transactions by shift, as a measure of bartender and server productivity. Shifts can be automatically incremented using a timetable, or shift changes can be manually initiated.

Easy Screen Readability. The large backlit screen is visible in all lighting conditions, including the low lighting of a bar environment.
