

LIQUOR & CONVENIENCE STORES

The **Omni 3750 with SoftPay** is simple for liquor and convenience store clerks to use.

Auto-settle. The solution can be programmed to automatically settle within 24 hours to ensure that merchants qualify for the best discount rate.

Multiple Payment Types. The Omni 3750 supports credit, debit, EBT and check authorization. A triple-track card reader can even read drivers license data.

Card Ranging. Payments are simplified because the software automatically prompts for the appropriate card type. Clerks don't have to remember different procedures for each card type.

Fast Communications. Supports broadband communications for always-on connection via Ethernet, DSL or cable, delivering secure transactions in four seconds and eliminating the need for multiple phone lines.

Detailed Clerk and Shift Reporting. Reports provide transaction detail by clerk ID and by shift.

Batch History Report. The last seven batch totals are printed in a concise report so merchants don't have to contact the acquirer for this information.

Fraud Control. The solution supports account truncation and other measures to reduce fraud.
