The Payment Solutions Experts

What are people saying about Skipjack?

“I cannot imagine being successful in my job without Skipjack on my team.”

K.D., Finance Mgr., Houston, TX

Skipjack offers industry-leading solutions that help companies dramatically improve the way they process and manage payments.

Skipjack offers the widest range of solutions for all of your retail, Internet, mail order/telephone order, mobile and IVR transaction processing needs.

If one of our many pre-built solutions doesn't exactly meet your needs, you can easily integrate Skipjack to your application, select from one of many third party solutions, or have our Professional Services team build a solution to your specifications.

At the heart of Skipjack's solutions is our secure, intelligent, high speed transaction engine that supports credit card, debit & PIN-debit card, POS check, gift/prepaid/loyalty card, and ACH payments for merchants across North America and beyond.

All Skipjack payment processing solutions offer comprehensive reporting, extensive transaction management tools, advanced security, fraud protection and free merchant and technical support.

Detailed information can be found on our website at www.skipjack.com.

Your gateway to PROFITS

As a payment services provider (PSP), Skipjack connects a wide variety of pre-built, custom and third party solutions to the financial network (banks, processors and card associations) to enable merchants to process payments.

Our unparalleled feature and solution set; including reporting, transaction management, settlement services, data storage, security, pre-built applications and more; are exactly what you need to manage and profitably grow your business.

Keeping your data SECURE

With Skipjack, cardholder data security is a top priority. That's why we've been Payment Card Industry Data Security Standard (PCI) certified since the inception of the program. Since all merchants are required to be PCI compliant, we can help you reduce your business and financial risk by offloading the storage of credit card data. Result: you avoid risk, and save both time and money. In addition, Skipjack is compliant with Gramm-Leach-Bliley and HIPAA security standards.

Skipjack also provides access to a variety of tools to help protect you from fraudulent transactions.

Giving you the most CHOICE

Skipjack connects to the leading payment processors to ensure that you can use your merchant bank of choice. Current processor connections include:

- Global Payments Inc.
- TSYS (Vital)
- NOVA
- Concord EFS
- RBS LYNK
- Fifth Third Processing Solutions
- Paymentech (Salem/Tampa)
- First Data Merchant Services (Nashville/Omaha)
- Alliance Data Systems (ADS)
- Comdata
- Evertec

Fast. Powerful. Secure.

SMART SOLUTIONS for your payment needs.

Skipjack meets the payment needs of any merchant. Supported payment channels include retail, mail order/telephone order, Internet, IVR and mobile. Our solutions span a wide range from retail (including PIN debit), recurring payments, virtual point of sale, mobile device, batch authorization and many more.

Skipjack's solutions satisfy the specific payment requirements of many industries. These include health care, education, financial services, government, utilities, publications, call center and more.

Our services have also been integrated into an extensive number of third party applications including shopping carts, ERP, CRM, and accounting solutions. These solutions include many that are tailored to specific industries. In situations where Skipjack's pre-built applications aren't appropriate, fully customized applications can be developed by you, your development team, or Skipjack's Professional Services team. For more information on these solutions, please visit our website at www.skipjack.com, our Skipjack Solutions brochure, or our Solution Finder at <https://secure.skipjack.com/partners>.

How you can benefit

○ | Front Line

Fast processing speeds increase customer satisfaction and employee productivity

A wide variety of payment solutions means you can accept payments when, where and how you need to.

Skipjack does not charge a "per-seat" fee for access to its solutions. This means that more people can process payments for less cost.

Easy to use interfaces reduce error rates.

○ | Back Office

Advanced reporting tools reduce the time required to reconcile payments to deposits. This improves operational efficiency, resulting in lower total costs of processing payments.

Powerful online tools provide full control over all payments. This enables you to credit, re-bill, void, delete or settle transactions with the click of a button.

Knowledgeable customer support respond to your questions in minutes—not days.

○ | IT Group

Skipjack's industry-leading security and PCI certification eliminates the need to store sensitive credit card data in your systems, reducing your risk.

Responsive technical support, comprehensive documentation and free test accounts reduce your integration time and cost.

Skipjack Professional Services can cost-effectively build customized payment solutions in a fraction of the time of in-house development groups.

○ | Small Business

With Skipjack's full suite of out of the box solutions, small businesses have the ability to easily, efficiently, and affordably process transactions.

Skipjack payment solutions can help you grow your business by offering your customers a full range of payment options.

Skipjack's back office tools makes small business transaction management a snap.
